**FAC Spotlight:  
Secretary Lori Flanery Named a  
Top 25 Dreamer & Doer by  
GovTech Magazine**

Finance and Administration Cabinet Secretary Lori Hudson Flanery has been recognized as a Top 25 Dreamer and Doer by Government Technology magazine.

"I am honored to receive this recognition," said Secretary Flanery. "It is a reflection of how Gov. Beshear has made technology and access to technology priorities for his administration. As Finance Cabinet secretary, I've had wonderful opportunities to work with a great team of technology professionals across state government and in the private sector, all of whom have truly made this award possible."

Government Technology magazine began the Top 25 in 2002 to recognize individuals who exemplify transformative use of technology to improve the way government does business and serves its citizens.

For Secretary Flanery, the magazine highlighted two strategic initiatives she's been involved with that focus on broadband and connectivity as well as collaboration and consolidation.

First, the Commonwealth's most ambitious technology infrastructure project in more than 50 years is highlighted. Through this public-private-partnership more than 3,000 miles of middle-mile high capacity fiber will be built out to every county in Kentucky, starting with Eastern Kentucky as part of SOAR. **Get Fit  
with  
Zumba!!!**

In keeping with the Kentucky HealthNow initiative, Holly Callaghan with the Office of Administrative Services has offered to teach a Zumba class for Finance Cabinet employees.

This is a pilot program starting with Finance employees. The class will be held Wednesday afternoons in the Capitol Annex cafeteria.

Holly, a certified instructor for about two years, said she's excited about sharing a fun and exhilarating way to exercise.

"With ZUMBA it doesn't matter whether you can dance or not, how old you are, or what your fitness level is," said Callaghan. "Leave your worries behind, follow my lead and have fun moving to awesome music from all around the world! You'll have a blast shrinking everything, but your smile!"

If you are interested in the class please let Holly know by April 8. Her email is [holly.callaghan@ky.gov](mailto:holly.callaghan@ky.gov).

Below are three options for the class start/end time. In your email to Holly, please let her know which time you prefer. Based on the number of responses, the class will be offered at the time the majority can attend.

- 1) 4:45pm-5:45pm
- 2) 5:00pm-6:00pm
- 3) 5:15pm-6:15pm

Depending on the level of interest, other sessions may be added.

providers will be able to tie into the open access network to deliver broadband to communities.

Second, with the recent change to managed print services, Kentucky is now saving millions of dollars annually since downsizing and consolidating the number of printer devices across government agencies.

Secretary Flanery was appointed cabinet secretary in 2011. Prior to that, she was deputy secretary and interim CIO for the Commonwealth Office of Technology, an agency of the Finance Cabinet.
